Jan 26	Onizuka Science Day -Gr 5 in Hilo
Feb 1	7:15 am Deposit Day in A+ room

Do you love your school garden?

The Kona Brewers' Festival and Bill Healy Foundation fund a significant portion of the garden program here at our school. Now it's time for us to give back! Volunteers are needed to help out with clean up at the Kona Brewers' Festival on Saturday, March 9th. If you or someone you know is able to volunteer for this event please contact your garden coordinator, Aileen Force aileen_force@honaunau.k12.hi.us or leave a message with the school. Your kokua is appreciated!

Mary Gordon, social entrepreneur created Roots of Empathy in 1996. It's an evidenced based program that teaches empathy - the ability to understand the feelings of others, in the classroom. Studies have shown significant effects in reducing levels of aggression - including bullying in primary and elementary classrooms.

Na Momi Ho'omana'o -Pearls to Remember was written by the late Barbara S. McDonagh. She was a long time substitute at Honaunau and has graciously provided each student with a book. It is a beautiful story about a friendship and the lessons we can learn. The friendship combines the Hawaiian culture with life's trials.

Growth Mindset:
Kids with a growth mindset believe their abilities can improve over time.

Part of Honaunau Elementary School's vision is "...make a positive difference in the world". Our Gr 5 students will be traveling to Kamilo Beach on Jan 24 to do a clean up. For those that may not know the meaning of Kamilo Beach it is:

Kamilo Beach (literally, the twisting or swirling current in Hawaiian), is a beach located on the southeast coast of the island of Hawaii. It is known for its accumulation of plastic marine debris from the Great Pacific Garbage Patch. Unfortunately Kamilo Beach is one of our dirtiest beaches.

You may find more information about what organizations are trying to do by going to www.theoceancleanup.com
